Why Howard Zinn has become one of the most important and influential American historians is perhaps nowhere more evident than in this new book. Few social critics have been as inspiring as the ever-hopeful Zinn and, unlike many historians, Zinn turns historical details toward deeper observations on the universal truths and struggles of humankind. His remarkable wisdom and insight can be found in his earliest writings through his latest essays, speeches, and plays. Uncommon Sense brings together his most poignant and profound quotations from decades of writing and speaking. The book reveals the philosophical side of Howard Zinn and a consistency of vision over 50 years on topics ranging from government to race, history, law, civil disobedience, and activism. Offering quotations of universal and timeless quality, the book shows why history will regard this historian as a political and moral philosopher in the company of Paine, Jefferson, Frederick Douglass, and Martin Luther King Jr.

As a World War II combat soldier, Howard Zinn took part in the aerial bombing of Royan, France. Two decades later, he was invited to visit Hiroshima and meet survivors of the atomic attack. In this short and powerful book, Zinn offers his deep personal reflections and political analysis of these events, their consequences, and the profound influence they had in transforming him from an order-taking combat soldier to one of our greatest anti-authoritarian, antiwar historians. This book was finalized just prior to Zinn's passing in January 2010, and is published on the sixty-fifth anniversary of the bombing of Hiroshima. Simultaneous publication this August in the U.S. and Japan commemorates the 65th anniversary of the USA's two atomic bombings of Japan by calling for the abolition of all nuclear weapons and an end to war as an acceptable solution to human conflict. "Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history..."—New York Times Book Review "This collection of essays is a great book for anybody who wants to be better informed about history, regardless of their political point of view."—O, The Oprah Magazine "Zinn collects here almost three dozen brief, passionate essays... Readers seeking to break out of their ideological comfort zones will find much to ponder here."—Publishers Weekly "A bomb is highly impersonal. The dropper can kill hundreds, and never see any of them. The Bomb is the memoir of Howard Zinn, a bomber in World War II who dropped bombs along the French countryside while campaigning against Germany. After learning of Hiroshima and Nagasaki, Zinn now speaks out against the use of bombs and what it can do to warfare. Thoughtful and full of stories of an old soldier who regrets what he has done, The Bomb is a fine posthumous release that shares much of the lost wisdom of World War II."—James A. Cox, The Midwest Book Review "Throughout his academic career, his popular writings and work as an activist Zinn consistently, and often successfully, threw a wrench in the works of the US war machine. He may be gone, but through his powerful and passionate body of work—of which The Bomb is an excellent introduction—thousands of others will be educated and inspired to work for a more humane and peaceful world."—Ian Sinclair, Morning Star "The path that Howard Zinn walked—from bombardier to activist—gives hope that each of us can move from clinical detachment to ardent commitment, from violence to nonviolence."—Frida Berrigan, WIN Magazine Howard Zinn (1922 – 2010) was raised in a working-class family in Brooklyn, and flew bombing missions for the United States in World War II, an experience he now points to in shaping his opposition to war. Under the GI Bill he went to college and received his Ph.D. from Columbia University. In 1956, he became a professor at Spelman College in Atlanta, a school for black women, where he soon became involved in the civil rights movement, which he participated in as an adviser to the Student Nonviolent Coordinating Committee (SNCC) and chronicled, in his book SNCC: The New Abolitionists. Zinn collaborated with historian Staughton Lynd and mentored a young student named Alice Walker. When he was fired in 1963 for insubordination related to his protest work, he moved to Boston University, where he became a leading critic of the Vietnam War. In his lifetime, Zinn received the Thomas Merton Award, the Eugene V. Debs Award, the Upton Sinclair Award, and the Lannan Literary Award. He is perhaps best known for A People's History of the United States. CityLights Booksellers and Publishers previously published his essay collection A Power Governments Cannot Suppress.

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important

events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

A Washington Post and BookPage Best Nonfiction Book of 2021 From a Pulitzer Prize – winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi. At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, *American Republics* illuminates the continuities between our own social and political divisions and the events of this formative period.

#1 New York Times Bestseller \* A historian of fascism offers a guide for surviving and resisting America's turn towards authoritarianism. The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. *On Tyranny* is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come. "Mr. Snyder is a rising public intellectual unafraid to make bold connections between past and present." --The New York Times
