The book describes the difficulties of the current international corporate income tax system. It starts by describing its origins and how changes, such as the development of multinational enterprises and digitalization have created fundamental problems, not foreseen at its inception. These include tax competition—as governments try to attract tax bases through low tax rates or incentives, and profit shifting, as companies avoid tax by reporting profits in jurisdictions with lower tax rates. The book then discusses solutions, including both evolutionary changes to the current system and fundamental reform options. It covers both reform efforts already under way, for example under the Inclusive Framework at the OECD, and potential radical reform ideas developed by academics.

Clearly introduce even the most complex tax concepts and today's ever-changing tax legislation with SOUTH-WESTERN FEDERAL TAXATION 2013: CORPORATIONS, PARTNERSHIPS, ESTATES & TRUSTS, 36E. An annual text which provides suggested solutions to a series of case study type questions on taxation law.

The posthumously published collection Hermit in Paris draws together an array of Italo Calvino's autobiographical writings that provide an illuminating and unexpectedly intimate portrait of one of the postwar era's most inventive and fascinating writers. In these pages, Calvino recounts his experiences in Italy's antifascist resistance, pays homage to his influences, traces the evolution of his literary style, and, in one of the book's most humorous and entertaining sections, provides a wry commentary on his travels in the United States in 1959 and 1960.

The #1 CPA exam review self-study leader The CPA exam review self-study program more CPA candidates trust to prepare for the CPA exam and pass it, Wiley CPA Exam Review 40th Edition contains more than 4,200 multiple-choice questions and includes complete information on the Task Based Simulations.
